

RETURN ON YOUR INVESTMENT

Training solutions with measurable results.

By providing your employees with the knowledge and skills they need to successfully perform their jobs, you can have a significant impact on your company's bottom line. Tooling U-SME can help measure, analyze, and prove your training return on investment (ROI).

As you evaluate investment in capital expenditures such as equipment and technology, we can help you justify the funding of your workforce training and development program.

Tooling U-SME experts work with you to determine training ROI metrics for accelerating onboarding, reducing downtime and increasing productivity.

With Tooling U-SME training—a strategic blend of content and delivery methods—your workers will be better able to solve problems and apply their knowledge on the job, leading to a high ROI measured by:

- ◆ Less scrap and rework
- ◆ Lower tooling costs
- ◆ Fewer machine crashes
- ◆ Improved employee retention
- ◆ Increased workplace productivity and performance

As your training partner, we can ensure that your training program is an integral part of your company's strategic plan and is attached to overall financial goals.

Tooling U-SME is a leader in manufacturing workforce learning and development.
