

# TURNKEY TRAINING

Quick-start, complete learning plans for specific job role competencies.

**Identify worker knowledge.** Tooling U-SME's Turnkey Training is a standalone training package for common manufacturing roles that allows you to identify the knowledge needed for each worker to provide learning pathways.

**Upskill and validate worker competence with:**

- ◆ Pre- and post-assessments
- ◆ Fully mapped standard baseline curriculum for each competency
- ◆ Recommended learning pathways including our content and other identified training requirements to grow your company's workforce.

**Almost 54% of manufacturers do not have a plan to address the skills gap.** Addressing the current shortage of worker talent has become critical. Turnkey Training provides a quick-start training program for incumbent workers and new hires in required knowledge for core manufacturing competencies, giving you:

- ◆ Assurance that all employees will have the job competency skills that their company needs to be successful today and in the future
- ◆ A culture of continued learning for workers encouraging worker retention
- ◆ Increased motivation by employees who now have an opportunity to earn an income and learn a trade at the same time

Identify worker knowledge and provide learning pathways to grow your company's workforce.

Tooling U-SME is a leader in manufacturing workforce training and development.
