

## NOT YOUR AVERAGE **CLASSROOM**

Today's students demand a new type of training. They are not impressed by textbooks alone. They want to be engaged and challenged.

At the same time, you need a training option that blends with your curriculum. You need instruction rooted in sound manufacturing principles that complements hands-on instruction. You need time-saving tools to track your students' progress toward competencies and standards.

That is why Tooling U has created a vast catalog of 400+ interactive web-based classes for tomorrow's workforce in the metalworking, assembly, and maintenance trades. Discover a better way to reach your students. Help them gain the *confidence to compete.*
