

Tooling University provides products and services that address some of the most critical skill and capability requirements of today's global manufacturing workforce.

Assess your training needs and identify knowledge gaps using pre-training diagnostic tools.

Train your employees using job-related class content in a self-paced, interactive learning environment.

Measure the improvement in your employees' knowledge and skills with powerful administrative tools and reports.

Assemblers are responsible for joining separate components into finished goods ranging from small, detailed products to heavy equipment. This position demands an understanding of mechanical fasteners and torque, methods for inspecting finished parts, basic welding principles, and print reading skills. Assemblers often work in teams and benefit from learning quality methods such as lean systems and cell design.

This program contains all of the 53 classes below:

- ◆ Intro to Assembly 100
- ◆ Safety for Assembly 105
- ◆ Intro to Fastener Threads 110
- ◆ Overview of Threaded Fasteners 117
- ◆ Tools for Threaded Fasteners 120
- ◆ Overview of Non-Threaded Fasteners 125
- ◆ Intro to Fastener Ergonomics 130
- ◆ Properties for Fasteners 200
- ◆ Understanding Torque 210
- ◆ Threaded Fastener Selection 215
- ◆ Basic Measurement 110
- ◆ Linear Instrument Characteristics 115
- ◆ Overview of Threads 150
- ◆ Intro to GD&T 200
- ◆ Mechanical Properties of Metal 120
- ◆ Physical Properties of Metal 130
- ◆ Quality Overview 100
- ◆ ISO 9000 Overview 110
- ◆ Lean Manufacturing Overview 130
- ◆ Intro to Supply Chain Management 140
- ◆ Cell Design and Pull Systems 160
- ◆ Conducting an Internal Audit 200
- ◆ Intro to OSHA 100
- ◆ Fire Safety and Prevention 110
- ◆ Bloodborne Pathogens 115
- ◆ Personal Protective Equipment 120
- ◆ Lockout/Tagout Procedures 130
- ◆ Safety for Lifting Devices 135
- ◆ Machine Guarding 140
- ◆ Hand and Power Tool Safety 145
- ◆ Environmental Safety Hazards 150
- ◆ MSDS and Hazard Communication 160
- ◆ Noise Reduction and Hearing Conservation 170
- ◆ Walking and Working Surfaces 180
- ◆ Confined Spaces 190
- ◆ Respiratory Safety 195
- ◆ Powered Industrial Truck Safety 210
- ◆ Math: Fundamentals 100
- ◆ Math: Fractions and Decimals 105
- ◆ Math: Units of Measurement 115
- ◆ Basics of Tolerance 120
- ◆ Blueprint Reading 130
- ◆ Geometry: Lines and Angles 155
- ◆ Geometry: Triangles 165
- ◆ Geometry: Circles and Polygons 185
- ◆ What Is Arc Welding? 110
- ◆ Arc Welding Safety 115
- ◆ Arc Welding Processes 120
- ◆ Overview of Weld Types 130
- ◆ Electrical Power for Arc Welding 140
- ◆ Intro to Workholding 104
- ◆ Supporting and Locating Principles 106
- ◆ Locating Devices 107
