 5. Comprehensive, concise classes
 4. Support staff is very responsive
 3. Flexible, meets our scheduling needs
 2. Measurable return on our training investment
 1. Every class is applicable to our businesses

Dodd Noren, Manufacturing Manager for AB Heller, is using Tooling University's online classes to keep the company's shop employees up-to-date with the latest manufacturing knowledge training. As a full-function precision CNC-machining facility with over 125 machines capable of more than 50 different processes, AB Heller depends on the skills of its workforce to exceed the expectations of its customers.

According to Mr. Noren, “We recognize the importance of employee development, and at the same time, realize that many educational opportunities for the manufacturing industry are disappearing. Tooling University fills a void and meets our training requirements.”
